

# Littovir swiss made

## Bio-Insecticide for the efficient control of African cotton leafworm and fall armyworm

### Key benefits

- High compatibility in tankmix and with beneficials
- Unique mode of action with additional effect on pest population
- Excellent resistance management tool

Easy to use  
in IPM

Safe for producer,  
consumer and  
the environment

No residues, no  
WHP and min. REI

### Product Facts

#### Target pest

African cotton leafworm (*Spodoptera littoralis*), Fall armyworm (*S. frugiperda*)

#### Active ingredient

*Spodoptera littoralis*  
nucleopolyhedrovirus (SpliNPV)

#### Formulation

Suspension concentrate (SC)

#### Concentration

$5 \times 10^{11}$  OB/liter

#### Standard rate

200 ml/ha

#### Crops

Row crops like corn and soybean,  
vegetables and many other crops

## Littovir highly reduced fall armyworm larvae on corn in South Africa

Field trial conducted by ASC research, South Africa, 2021

- 6 applications of 200 ml/ha
- 7 days interval
- Assessment of number of living larvae on 10 plants per plot

## Andermatt Group is a global leader in biological solutions

- Strict quality control for consistent high quality
- Innovative in-house R&D to support growing portfolio
- Long-standing field support in different markets since 1988

*Healthy Food and Healthy Environment, for all*
